Last Week's Program....

Robert Freer – Citadel Prof., Free Enterprise Organization Founder.

Professor Freer program included the following points:

- One reason for the economic meltdown was that the Federal Reserve did not start to slow things down in 2000-2003 as they should have. Was this due to thinking that a slow down would have a negative impact on the party in power?

- We need to accept our share of the blame. We should have known better than to over-extend.

- Big banks will have to deleverage causing loan restrictions and terms that are not favorable. This will cause investors to invest outside of our country to make money.

THOUGHT FOR THE WEEK

A hole has been found in the nudist camp wall.

The police are looking into it.
